## Build the Pool that is Just Right for You

What would your dream backyard be?

We didn't invent the vinyl-lined pool, but our engineers did have the good sense to re-think it!

We have introduced a fully-engineered approach to On Ground/ Semi-Inground pool design and construction, starting from the basics. We examined the forces and factors affecting a traditional pool built on grade, at a variety of challenging sites, and made improvements wherever we found any weakness.

Our resulting manufacturing innovations have led to more options in what was previously a very limited market. Our On Ground/Semi-Inground pools are so well engineered they can be installed totally above grade or in-ground.

- The steel walls and braces provide the shape and foundation for your pool.
- The vinyl liner you select will determine the color of your pool. Each liner is custom-made using Ultra-Seam® liner technology.
- Steps, available in molded fiberglass or thermoplastic materials can provide a stylish and safe entry and exit. (these pools do not have ledges or vinyl-over steps)
- Winterize your pool with a fitting winter cover.

## Planning and Conceptual Ideas

The steady progression to a well planned “poolscape” begins with a well thought out design. Be sure you discuss these important topics with your authorized dealer:

- Legal and zoning requirements
- Pool-site ground and drainage conditions
- Access to the pool site
- Sun path and wind activity
- Yard grades and the finished grade of the pool in relation to existing structures
- Social and recreational areas in relation to the size and shape of your pool.

## Construction and Landscaping:

Once you've established the initial design and concept for your pool, discuss these accessories with your dealer

- Positioning of walk-in stairs, stainless steel rails and ladders
- Type and size of heating to extend the swimming season
- Solar blanket and roller
- Lighting requirements of the pool and yard – perhaps fiber optics
- Automatic pool cleaner
- Automatic chemical feeder
- Fencing and landscaping requirements.

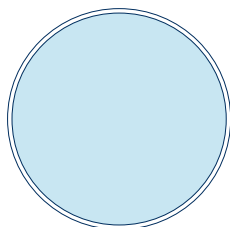

# Rockwood 52"

Design features make our pools the most rugged on the market.

- The Rockwood wall systems are 52" tall and made of Z700/G235 galvanized steel, so durable that we offer a limited lifetime warranty on the pool.
- Durable polymer coping with UV inhibitors withstand the exposure to sun and provides lasting beauty.
- Vinyl pool liners are formulated to prevent the growth of algae and protect against the damaging UV rays of the sun.

## Round

<b>15'</b>	<b>47'-1"</b>
<b>18'</b>	<b>56'-7"</b>
<b>21'</b>	<b>66'-0"</b>
<b>24'</b>	<b>75'-5"</b>
<b>27'</b>	<b>84'-10"</b>
<b>30'</b>	<b>94'-3"</b>

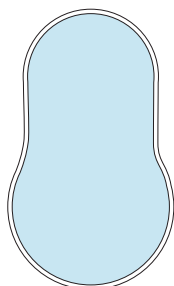

## Oval

<b>12' x 18'</b>	<b>50'-0"</b>
<b>12' x 24'</b>	<b>62'-0"</b>
<b>12' x 28'</b>	<b>70'-0"</b>
<b>14' x 28'</b>	<b>72'-0"</b>
<b>15' x 30'</b>	<b>77'-2"</b>
<b>17' x 30'</b>	<b>80'-0"</b>
<b>17' x 32'</b>	<b>84'-0"</b>
<b>18' x 33'</b>	<b>86'-6"</b>

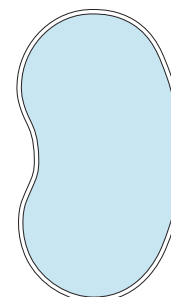

## Key

<b>14' x 24'</b>	<b>63'-0"</b>
<b>16' x 28'</b>	<b>73'-6"</b>
<b>18' x 30'</b>	<b>79'-0"</b>

## Kidney

<b>12' x 22'</b>	<b>59'-0"</b>
<b>14' x 28'</b>	<b>72'-0"</b>
<b>16' x 32'</b>	<b>84'-0"</b>

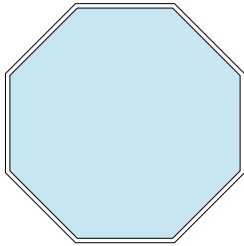

## Champlain 42" & 48"

Champlain features and benefits include

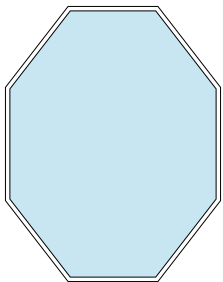

- No-weld wall construction
- Nine bolt panel fastening system
- 10 gauge buttress supports and 3/4" x 12" anchoring rods
- Our on-ground is the most corrosion-proof pool of its kind and provides years of trouble free enjoyment.
- Strength unsurpassed in the industry – our octagon shapes need no concrete!
- Guaranteed unequaled support and stability for our emerald shapes so your pool will retain its shape without a lot of costly concrete.
- Durable polymer coping with UV inhibitors withstand the exposure to sun and provides lasting beauty.

### Octagon

Size	Wall Height	Area sq ft	Flat Bottom	Hopper Bottom
<b>15'</b>	<b>42"/48"</b>	<b>177</b>	<b>YES</b>	<b>NO</b>

<b>19'-4" x 35'-6"</b>	<b>42"/48"</b>	<b>618</b>	<b>YES</b>	<b>YES</b>

Enhance your pool with these additional options

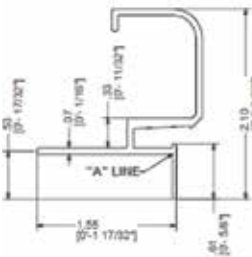

## Curved Step

Available with 48" curved step.

## PVC Coping

Suitable for easy winterizing with the "fitted winter cover."

## Wood Deck Coping

Suitable for easy winterizing with the "fitted winter cover."

Rockwood and Champlain vinyl pool liners are formulated to prevent the growth of algae and protect against the damaging UV rays of the sun. Please contact your authorized dealer for a complete listing of liner patterns available.

Champlain Emerald

**How will you use your pool?**

How do you imagine it enhancing your life? Will you be swimming laps every morning? You might want to spend sunlit days lounging poolside with your favorite music streaming through hidden speakers, or to decompress in the evenings with the stars reflected in the water and a glass of wine in your hand. Perhaps you envision hosting family birthday and holiday pool parties.

**How much room do you have for your pool?**

How large is the environment in which your pool will be installed, and how much of it do you want devoted to your pool? Your pool will be the center of your backyard lifestyle, but what does that translate to in feet and construction materials? Working with an experienced builder, you will determine which size pool and what materials suit your needs best.

**What's your style and how can your pool express it?**

Some might find comfort in a more traditional backyard, while others are drawn to the avant-garde. Some might want a pool that blends into its surroundings while others might want one that stands out. There are no wrong answers. What is important to remember is that the design of your pool should work with your backyard and the home in front of it.

**What's your budget?**

Consider how much you can spend on your pool, including the costs of the pool itself, accessories and installation. And remember—you are also buying an investment in endless fun and family entertainment.

Smart pool owners consider safety first, and take specific steps to ensure that their family, friends and guests are knowledgeable about the safe and sensible use of their pool.

There are several best practices that are essential to safe pool operation:

- Ensure that the pool is kept in good repair and is not used when there is a missing or broken component.
- Anyone under the influence of alcohol, drugs or stimulants that would impair their abilities or judgment should not use the pool.
- Ensure that the pool is protected by appropriate barriers to unsupervised entry, including fencing with self-latching gates, covers, alarms, etc.

There are a number of items that are essential for pool safety, all of which should be installed in accordance with the manufacturer's instructions as well as state and local statutes:

- Safety ropes should remain in place at all times.
- "No Diving" signs should be placed appropriately and in accordance with directions.
- Latham provides an area sign which must be permanently and conspicuously affixed in the pool area.
- You must have means of entry into and exit from the pool.
- You must have fencing with a self-latching gate that prevents children and pets from reaching the pool unsupervised, in accordance with local regulations.
- You must have approved drain covers to protect against suction entrapment.
- You must have the minimum required inlets and returns to ensure proper water circulation.
- Appropriate in-pool lighting should be used at night.
- Diving boards and slides require minimum depths and distances and must be installed in strict compliance with the manufacturer's specifications. If your pool is labeled "Non-diving," do not install diving equipment.

Several books and other items about pool safety are included with each Latham pool. Carefully read these and make them accessible to those who use your pool:

- Pool Owners' Safety Book
- PHTA "Sensible Way" Book
- Lifetime Limited Warranty
- "Children Aren't Waterproof" Pamphlet
- "Non-diving" Label
- Additional Warning Labels
- Use and Care Manual
- Safety Sign Installation Sheet
- Additional Signs and Labels

Be sure your installer supplies you with all of the safety information that accompanies your pool and installs the warning stickers and area sign where they can be clearly visible to all who use the pool.

We also recommend that you contact your local American Red Cross for available CPR and other vital safety programs.

NOTICE: The manufacturer stands behind every product they produce pursuant to those representations which are stated in the written warranties. Your dealer/builder/contractor is an independent businessperson and not an agent or employee of the manufacturer. The manufacturer cannot and does not accept any responsibility for any representations, statements or contracts made by any dealer/builder/contractor.

The specifications in this brochure were believed to be true at the time of printing. However, specifications, standard equipment and options are subject to change without notice.

The manufacturer does not manufacture slides, diving boards, or any other diving equipment. Any use of such equipment must be in strict compliance with the equipment manufacturer's specifications, as well as local building codes and regulations.

In some pictures, the safety line rope and floats, and safety signage have been removed from the pool for photographic purposes. The safety line should be permanently attached at all times. We also urge you to use handrails and grab rails in accordance with the PHTA Standards.
